## Project Work

- **Automated Resume Generator (Minor)** | Nov 2021 - Dec 2021

A Web development project with a user-login and dashboard system where one can easily create resumes, save them for later reference, upload existing resumes, view all created resumes in one page, manage their resumes and many more. I have done whole coding and designing part in the project.

- **Bhopal House Price Prediction Project** | Jan 2022 - Feb 2022

A Machine Learning model implementation that predicts the price of a house in specific location of Bhopal. We've trained the model using data scraped from magicbricks.com and 99acres.com. The data collected is used to train as well as to test the model. Accuracy of model is 97% and the mean squared error is 1.3 which makes the model pretty accurate. I have done UI designing.
